

Reusing 2010 annual cures & enhancers kit in 2011

We realise that not everybody can afford to purchase a new kit each year and while the cures from the previous year will not be as effective, we have still found a way for you to implement the cures into your home for 2011. I know most Feng Shui websites and books will say that you should not reuse at all and throw away or bury three feet into the ground as the previous year's kit stores so much collective negative energy, I do not like to advise this as I know that there are still many people who cannot afford to replace the kit each year and you will always find alternatives in our advice that everyone can implement a cure regardless if they use the kits or not.

Cleansing your old cures and enhancers kit:

To cleanse them ideally you should place outside under a full moon overnight or in direct sunlight for at least 4 hours and sprinkle with rock or normal salt. Rinse under water (don't forget to dry them) in the morning and place them in the appropriate areas. This does not apply to the salt water cure, as this **MUST** be **renewed** every year without exception. As with all our products including the annual cures kits, they are all cleansed of negative energy and empowered with positive Sheng Ch'i energy, which makes them so much more effective.

The wind chime and a salt water cure should be placed in the east of property as the 5 Yellow star (Wu Wang), which is not a good star is located in this area. You should also place some metal objects here to weaken further. Do not burn candles or have fire in the east for 2011.

2 Black is in the south, hang your six Chinese coins and place your salt water cure, you can also place metal objects to weaken the bad earth. Do not burn candles or have fire in the south for 2011.

The 2011 Annual Feng Shui Afflictions:

The Three Killings - is a direct translation from the Chinese 'San Sha'. This yearly affliction is mainly in the west (232.5° to 307.5°). It is imperative that you do not undertake any form of noisy renovations or re-decorative work in the north part of your house or office between February 4th 2011 and February 3rd 2012. Nor should you disturb the ground by digging holes, building foundations or conduct any maintenance work with any noisy equipment in this area inside or outside your property or garden. Once disturbed, this affliction will bring about three types of misfortunes – financial loss, sickness and arguments. This is the worst out of all the annual afflictions and in our home and business we take this very seriously as in our 31 years experience with Feng Shui we have seen some pretty nasty events from this energy when disturbed.

Apart from not disturbing its ground, there are two other rules you should follow regarding the Three Killings. Firstly, if you are moving your desk around this year, never sit with your back to this direction (west). Secondly, it is better to face (west) this direction, especially if this is one of your four favourable personal directions.

If you have to carry out work or emergency repairs in the west place a six hollow metal rod wind chime between the building and where the work is being carried out and ideally you should contact a professional Feng Shui Practitioner to select an auspicious date to start the work or you can use our Tong Shu software.

Tai Sui (The Grand Duke of Jupiter) resides between 82.5° - 97.5° east.

Do not take this affliction lightly. Do not disturb the ground in the east at all costs.

East facing properties with front doors to the east must be careful not to allow the doors to slam and do not renovate or dig in this part for 2011.

With the very inauspicious #5 Lian Zhen star also visiting the east palace in 2011 you have earth meeting wood which is a destructive combination and can cause bad luck and health problems and needs very specific cures and of course when you combine all this destructive energy with the even more destructive Tai Su (Grand Duke)

Sui Po (The year breaker)

Sui Po year breaker occupies the division directly opposite Tai Sui Grand Duke, which for 2011 is west (262.5 – 277.5). You should treat this area with the same respect as the other annual afflictions with no groundbreaking work, renovations or any noisy activities. If disturbed this area can and normally will cause immediate health problems especially for the elderly so please be very careful. If you have to carry out work or emergency repairs in the west place a six hollow metal rod wind chime between the building and where the work is being carried out.

The annual five yellow has flown to the east this year and because the east is associated with wood energy this is not good and the reason why so many cures are needed in 2011. It is highly recommended not to disturb its position here with noisy activities, renovations or maintenance work. Homes with gardens or driveways in the east of the property should avoid disturbing the ground with major digging or building work. When disturbed, the Five Yellow can bring disaster, sickness, lawsuit and major loss of wealth.

Please remember not to renovate, dig or repair in the sectors indoors or outdoors in which the Three Killing Forces, Tai Sui and the Annual 5 Yellow are present.
