Are you prepared for 2019?

“Growth is never by mere chance; it is the result of forces working together.”

Another year passed, and we are now leaving the year of the Dog behind and entering the year of the Yin Earth Pig (Ji Hai). As with every year, the forecast below might seem daunting when you first read it but please bear in mind that I would prefer to tell you the possibilities of what can happen if the annual flying stars are not taken seriously. This influence has the ability to cause some big problems if not treated accordingly although the good news is that when treated with the correct cures, colours and objects recommended below, you can avoid the potential problems and also create some extremely big opportunities and luck in your home or office for the year of the Yin Earth Pig!

At the Feng Shui store, we always offer a solution to a problem and will always offer a free or cheap solution that you can implement with the help of different furniture or coloured throws already available in your home; although these will not be as effective as traditional Feng Shui cures and enhancers, we have always worked on the ethos of giving everyone a chance to weaken the negative stars and enhance the good stars regardless of their budget or belief in Feng Shui. By reading the

advice below, you can make 2019 a very successful year for you, your family, and friends so please be sure to check back throughout the year.

If your bedroom, office or other important room falls in to an area that is afflicted with a negative star this year and you are not able to move out of this room in 2019, please do not panic as there is always something you can do to make the most of your situation.

Another vital tool for the year of the Pig and something that can help get you off to a good start is our [Chinese animal predictions](#) for the year as each of the twelve different Chinese animals will have different predictions for the year ahead so if you read that your animal can look forward to great financial luck this year, you will want to make sure the right flying stars are treated correctly to maximise your wealth in 2019.

From everyone at the Feng Shui Store, we would like to wish you a healthy, happy, prosperous and all things fabulous year of the Yin Earth Pig (Ji Hai).

When do the Flying stars change in 2019?

The Flying stars will change all around the world in every single home, business and building on the 4th February 2019, we will have a huge shift in energy and will need to make sure we are prepared for the year ahead. In 2019, we have the #8 annual star fly in to the centre and although this a wealth star, it can cause financial and overall luck problems when it flies in to the centre as the primary wealth star is trapped in the centre although when activated correctly with the correct cures and enhancers, the annual #8 can bring good wealth in to the home and protect existing wealth. Every year, I make predictions for the year ahead, and we forecasted 2018 with 100% accuracy and based on our predictions for last year and the feedback from our clients, the majority were able to enjoy a productive and rewarding year of the Rooster in 2018.

Every year, I put my head on the chopping block with my predictions and this year, as I've done many times in previous years, by predicting that with the annual #8 falling in to the central place with the inherent energy of the #5 could bring a lot of major companies into liquidation in 2019.

We may also see natural disasters taking place around the world during the year of the Pig related to lands such as property sinking, bridges collapsing and landslides. Unfortunately, the annual influence can bring some problems that are out of our control although we do have the power to avoid problems in our own home and business with the help of the annual flying stars by following the Feng Shui advice on these pages. Doing so will enable you to prepare for the year ahead, prevent problems and ensure a successful 2019. We've been making these predictions for 20 years with staggering accuracy, and the [cures and enhancers](#) have been the way to secure an enjoyable year.

Last year, we recommended that people were financially cautious in 2018 and for 2019, this will sadly be the same although not as bad as 2018. When making large purchases in 2019, it would be wise to check on the monthly [Tong Shu Almanac by clicking here](#) and have your annual cures and enhancers for 2019 in place on the 4th February.

Now that all of the warnings and undesirable points of the year are out of the way, I will focus on some of the more exciting points to the year of the Pig. If you go through some other Feng Shui websites and read their synopsis on 2019, you may find that they are predicting all doom and gloom for the year ahead and although part of this is true, I am personally really excited about 2019 as there will be a lot of good to come out of it with the energies present this year. For maximum benefit in 2019, I would make sure you activate the centre and north of your home or office; I will speak about how to do this below... Remember, there is much we can do to ensure the best year possible; we alert you to the possible upcoming misfortunes for the year and provide solutions with where and how to place your cures and enhancers.

For example, those born in the year of the Snake may be affected by the conflicting influences of the year of the Yin Earth Pig Ji Hai.

The Snake is in direct conflict with the Pig, and as 2019 will be a Yin Earth Pig year, this puts the snake in direct conflict for the year and their overall luck this year will be less than the Tiger who is the Pig's secret friend and will benefit from good luck in 2019. If your Chinese animal has been predicted problems for the year of the Pig, do not panic as this is only a small influence in the grand scheme of things and there is much you can do to change your luck for the better in 2019.

We have done thousands of consultations since we first opened the Feng Shui Store back in 1999 and I have found that every single home is different with its positive and negative attributes; no two houses will ever be the same and will always be prone to change so if you feel worried that you have a negative star in an important room this year, just remember that nothing is stagnant in Feng Shui and luck is constantly moving around to help you make the most of your circumstances and improve the quality of Qi in your home or office.

As an example, let's take a look at a home that has a bedroom in the northeast and an office in the southwest and how the annual stars could have an impact on their life in 2019 if not treated correctly. The problems with this configuration could be related to finances, any bad luck, problematic relationships, chest and stomach issues and also depression. However, by placing the [annual cures and enhancers](#), you can eliminate or reduce these problems. If you are or were a smoker, and already have breathing and chest problems, then the cures and enhancers could certainly reduce exacerbating chest health problems. If you're a smoker and wish to give up, then 2019 is the ideal time. Remember, the flying stars will dictate the problems, but there's much you can do to lessen or eliminate the problem by following Feng Shui advice annually and monthly.

Those born in the year of the Snake could be affected by the conflicting influences of the year of the Yin Earth Pig in 2019 as the Snake is the conflict animal of the Dog. Those born in the year of the Snake should be aware of potential difficulties they may encounter during the year and take extra care in whatever they do without taking unnecessary risks in all aspects of their life. Regardless, if you follow the advice here, you can avoid many problems, in our opinion so please do not worry. It should be noted that there are five different types of each Chinese Animal (fire, water, wood, earth, metal) which depends on the year you were born and each different animal will have different predictions for the year ahead.

For example

Metal Rabbit: 1951

Water Rabbit: 1963

Wood Rabbit: 1919, 1975

Fire Rabbit: 1927, 1987

Earth Rabbit: 1939, 1999

With regards to the layout of the Xuan Kong Flying Stars in 2019, we will have the #8 white wealth star fly in to the centre on the 4th of February; the #8 star is the governing wealth star for period 8 (2004 – 2024) and can create a lovely influence when activated correctly as this will help resonate the auspicious energy throughout the rest of the building. In 2019, the most powerful cures you can place in the centre of your home, office or shop are the [Madaochenggong Master Cure](#) along with the [Dui Ou Lung wealth and success Talisman](#) as these two cures work in synergy with each other to create abundant wealth luck in 2019. All of the cures and enhancers I have mentioned are from our [2019 Cures and enhancers kits](#) although we do recommend alternatives for every area of your home as we like to offer as much advice as possible.

I mentioned the #2 black and #5 yellow star very briefly above and will go in to a little more detail about them now as these are important stars to treat as they can bring lots of problems if left alone without cures and enhancers.

Where can the #2 star be found in 2019?

The #2 black star is located in the northeast in 2019 and can bring illness to the occupants of the home this year if not treated carefully. The traditional method to weaken and control the #2 star is to hang [a row of 6 metal I-Ching Chinese coins](#) in the northeast from the 4th February 2019 to the 3rd February 2020; wherever you source the 6 coins in a row from, please make sure they are from a good dynasty as this plays a very important role in the efficiency of this cure and we see a lot of stores going for the cheapest option when sourcing their cures and can bring more problems rather than helping to treat the afflicted area. It is also important to place a [salt water cure](#) in the northeast during 2019, and again, please make sure the coins are from a good dynasty. In our Cures and Enhancers kit for 2019, we have included the salt water cure and six coins along with a [Kwan Yin Pu Sa bell](#) to treat the northeast for the year.

Where can the #5 star be found in 2019?

The #5 yellow star is located in the southwest in 2019 between the 4th February 2019 to the 3rd February 2020 and is an extremely unstable star. It has no gender and no trigram and is highly treacherous when disturbed. When disturbed, its malicious influence brings tragedy, sickness, lawsuits and major loss of wealth. It is important that you do not have loud noise in the southwest in 2019 and do not break the ground by digging holes, digging foundations or conduct any maintenance work with any noisy equipment in this area inside or outside your property or garden. It is important to place a set of 6 coins in a row along with a salt water cure in the southwest in 2019 to weaken the malevolent effects of the annual #5 star. It is also important to place a [six rod hollow metal wind chime](#) in the southwest along with other good quality other metal cures.

Where are the worst flying stars in 2019 and where are they located?

In 2019, the worst flying stars are listed below including their locations. Please do not take these stars lightly as they can wreak havoc when activated and can bring all manner of troubles so please read below in the full Feng Shui analysis on how to treat these areas to avoid problems.

- 2 star – This can be found in the northeast in 2019
- 3 star – This can be found in the south in 2019
- 5 star – This can be found in the southwest in 2019
- 7 star – This can be found in the southeast in 2019

A Flying star chart has a fairly balanced mix of good and bad flying stars, and in period 8, the negative flying stars are the 2, 3, 5, and 7 stars. In 2019, it is important that we treat these stars with the relevant [Annual Cures and Enhancers](#) for the year as when disturbed or left untreated, they can cause all sorts of problems related to wealth, stress, illness, disputes, legal issues, death and much more so please make sure that you read through carefully on how to avoid issues during the year of the Pig. The palaces that are going to require care in 2019 are the northeast, south, southwest and southeast. You will also need to be careful with the west and northwest as this is where the three killings and Tai sui are located in 2019 although I will speak about this later.

If you live in a south facing home, 2019 could prove a bit challenging as you will find the front side of your house afflicted with the south, southwest and southeast suffering from negative stars. These sectors fall in my living room and the main bedroom which I spend a lot of time in so I will be spending a lot of time going through my decorations, colour scheme and layout to make sure these inauspicious stars are not activated in these areas. It is important to note that the effects of the negative stars will be dependent on which room they fall in. It is not easy for the majority of us to

abandon rooms with negative annual stars which is why we have included the appropriate annual cures and enhancers below for the Flying Stars of 2019 within the individual palaces making the areas manageable and usable.

If the southeast, south, southwest, west, northeast or northwest fall in to an important room in your home or office such as a bedroom, living room, study or office in 2019, it is important that you do not panic as you will soon discover that by the end of reading this article, you are loaded with an arsenal of cures and advice that will help you to avoid these problems.

The best advice I can give you for the year of the Pig is to make sure that you prepare early! Every year, we receive thousands of emails and calls during the week before Chinese New Year asking if we can get a cures kit over to Australia in three days or what to do with the northwest of the home as Tai Sui is located there for the year. Although we ship orders very quickly, it is out of our control to send the annual cures and enhancers kit across the world in a few days and luckily, we have noticed that people are a lot more prepared in recent years ordering the [2019 Cures and enhancers](#) in November and December in order to make sure everything is ready for the year ahead and there is no mad rush in February.

Another way to prepare yourself for the year of the Pig is our annual [2019 Feng Shui guide e-book](#). This downloadable book is an extremely valuable tool and has been written by myself for the year of the Yin Earth Pig. This e-book contains over 400 pages to help you make the year of the Pig as prosperous as it can be.

You will find the 2019 Flying star Xuan Kong full analysis detailed below for the year of the Yin Earth Pig. Please do not get confused between the date that the flying stars change (Solar New Year) and the date that you [celebrate Chinese New Year](#) (Lunar New Year) – I will talk more about this below.

What cures should I place in my home or business during the year of the Pig?

Ever since we first opened the Feng Shui Store 20 years ago, we have put a range of the most powerful cures and enhancers together for the year ahead for our [Feng Shui annual cures and enhancers kits](#) and in 2019, we have spent a great deal of time selecting and sourcing the most powerful and effective cures and enhancers to be used during the year of the Yin Earth Pig. These cures and enhancers can be placed any time during the year of the Pig in 2019 although to benefit fully; I would recommend having your cures and enhancers kit ready to place on the 4th February 2019.

Most of the cures and enhancers that we have included in the 2019 cures and enhancers kit are very tightly held secrets in the world of Feng Shui and although many websites have tried to copy them from us, if you take a look at their versions, you will notice that they are nearly always incomplete and missing the inscriptions which can prove very dangerous if placed; wherever you get your cures and enhancers for the year of the Pig, please take care when choosing as we have found that the more popular Feng Shui becomes, the more diluted the authenticity becomes with pop up companies trying to make quick cash without having any real knowledge in the history and application of Feng Shui; Just try Googling “Feng Shui shower curtain”...

Unlike the shower curtain I mentioned above, the [2019 cures and enhancers kit](#) are not gimmicky cures that we put together for the year; every single cure and enhancer is carefully selected by us and the majority of the time, we have each cure created or remade especially for us using better quality metals and materials to ensure what we offer to you is the best quality it can be. We are lucky enough to be in a position to order large quantities of cures and enhancers which allows us to make changes to ensure they are all 100% accurate. The majority of the cures and enhancers in our kits are usually only available to select clients of the most advanced Feng Shui masters around the world and would cost thousands of pounds for access to these cures although it is our belief that all cures and enhancers should be available to everyone and not just clients who have had a consultation on their home or office. It does not matter how late in the year in 2019 you place your annual cures as we

have many clients who have placed their Cures near the end of the year and still got great results and still receive orders in January for Cures for the current year.

The most influential and imperative cure and enhancer that you can place in your home or business in 2019 is the [Madaochenggong Master Cure](#) and can only be used in Yin Earth Pig (Ji Hai) years, the last time the Madaochenggong Master Cure would have been used was in 1959 which was the last Yin Earth Pig year. This cure is needed to enhance and protect in 2019. More on this later.

If you have suffered from illness, arguments, legal problems, bankruptcy, loss of wealth, health issues, relationship problems, accident, sore throat, skin problems, problems involving metal or just overall bad luck and you want to enhance your life and positive areas in 2019, **read on.**

[If you would like to know more about the 2019 cures & enhancers kit please click here.](#)

Are you really prepared for what could take place in your home or business in 2019, year of the Yin Earth Pig?

Every single person around the world from all walks of life could be affected by financial trouble during 2019 and care and attention is going to be needed as pig years can bring financial uncertainty although if you place the [Madaochenggong Master Cure](#) in the centre of your home or business, along with the [Yingxiangleiqie Sheng Chi Cure](#) in the east, you will be able to avoid a lot of the problems predicted and will be able to create new and also protect existing wealth, in our opinion, during the year of the Yin Earth Pig.

Please do not think that 2019 will all be doom and gloom; there will be many parts to look forward to in 2019. As I said above, by being aware of the potential problems, you can take action to avoid what could take place and turn bad in to good. If you follow the advice in this article, you can avoid many potential problems, and this is why we first introduced the [cures and enhancers kits](#) 20 years ago so that you can avoid many problems that are predicted in each year.

There are going to be Feng Shui Masters and consultants from all around the world who will be telling you what the disastrous year 2019 is going to be and how there will be disastrous events all around homes and businesses everywhere but despite what they are predicting, I am very excited for 2019 and am looking forward to what it brings in to my life!

If you were to take everything that every Feng Shui Master predicts too seriously, you'll be too scared to plan anything or go anywhere so take this with a pinch of salt and go in to the year of the Pig with a big smile on your face and a good action plan regarding your home and work place.

I've got the 2019 cures and enhancers ready; surely this is going to make me exempt from any problems in 2019?

If you have your main bedroom in the southeast, south, southwest, west, northeast or northwest in 2019 and you are the kind of person that avoids exercise and healthy eating and tend to indulge in a takeaway more often than you should along with a few alcoholic drinks and think that by taking a multivitamin, that you will stay in perfect health and not put any weight on, I'm sorry to say that you are very much mistaken although I know that you don't need me to tell you that.

By no means am I trying to convince you that my body is a temple and I do not touch any takeaways; I will be the first to say yes if someone suggests a Thai red curry on a night out although I will continue trying to maintain a good balance with diet and exercise. I will admit that I write this every

year and I am still not eating as healthy as I should although I do keep taking little steps in the right direction and am a semi regular in the gym; it's a marathon rather than a sprint.

One thing I can almost guarantee is that you will face some manner of problems in the year of the Pig and I am sure that I will too at some point. Feng Shui will not give you a completely perfect life although it will make it as good as it can be when you practice good Feng Shui. Think of it this way, if Feng Shui gave you a completely perfect, trouble free life, there would not be any Feng Shui masters as they would all be living in their version of paradise. Feng Shui is the practise of enhancing the good aspects of your life and suppressing the bad aspects to create an enjoyable life and avoid problems that could potentially come your way without the help of Feng Shui. Placing just the Feng Shui cures and enhancers on their own will help immensely, but you should also make lifestyle changes. Finances are going to require care again this year and if you think that you can place the cures on a Monday and then go and purchase a brand-new Range Rover on Tuesday, you are likely mistaken; Feng Shui cures work to protect, dissipate and enhance areas of your life.

What can I do to prepare for Chinese New Year 2019?

Every year, we write a range of extremely thorough articles on here to help you plan for the Chinese New Year and for 2019, year of the Pig, I would start by reading through the 2019 Annual Flying Stars and then take a look at the [2019 Chinese Animal Predictions](#). After reading through these two documents, I would recommend taking a look at our [2019 Tong Shu Almanac and Chinese Animal Book](#) or [maybe consider our Feng Shui report which gives you completely personalised details](#).

You will probably already know this, but over the last twenty years, we have given this free Feng Shui advice to hundreds of thousands of different Feng Shui masters, practitioners, students and enthusiasts from all across the world on how to make their home, office, shop, business or space for the upcoming year to avoid obstacles and make your situation as prosperous as it can be. While we will make a lot of different suggestions on cures and enhancers to be placed in each sector for each year, we do not always agree with the approach some websites take when they state that you will not be able to enjoy a good year if you do not purchase the cures and enhancers that they have on their website and that you must place 20 different cures in each sector, usually charging a considerable amount more than they should; although some of this has some truth to it, you do not need to cover your whole home or office in cures and enhancers in order to activate or weaken the annual stars.

We have always tried to offer a different range of cures and enhancers to suit people from all walks of life, in different situations, including offering free advice and alternatives for anyone who does not wish to place traditional cures or cannot afford them. Whatever your circumstances, there is always an option for you to make the year ahead the best that it can be. We believe that everyone should have access to valuable advice on how to make the year as successful as it can be without being bullied in to purchasing anything if they don't want to.

Two products that I would strongly recommend to you if your budget allows so for the year of the Pig are our [2019 annual cures and enhancers](#) kit alongside the world's most powerful and popular [Feng Shui software](#) which was the result of over nine years in development with 50 combined years Feng Shui experience. Michael Hanna and the International Academy of Feng Shui have built the most powerful Feng Shui software available which was originally designed for Michael to use when doing his consultations and was later released to the public to perform consultations on their own homes and offices. This software is used by thousands of Feng Shui Masters. Practitioners, students and enthusiasts from **over 126** different countries throughout the world.

What should I do if I have last year's Cures and Enhancers kit?

I have read hundreds of websites stating that you need to throw away or bury your cures and enhancers from the previous year when the Chinese New Year comes in and while this is true with

some cures, the majority of your cures and enhancers can be reused with great success. Some cures cannot be reused such as the salt water cure or six Chinese coins in a row as they hold a great deal of negative energy. Although it is true that your Cures and Enhancers store a lot of negative energy, it is not true that you need to throw away or bury your old Cures and Enhancers. To find out which of your Cures and Enhancers need to be replaced, I would search them in the store and read the advice as we state what can be reused and what should be renewed. To find out how to cleanse your cures, take a look at [THIS LINK](#).

Every year, I replace most of my Cures and Enhancers at the end of the year apart from certain cures such as my brass Wu Loud or my set of Three immortal statues that I bought in Bangkok many years ago as they are way too beautiful and valuable to me to throw away. You may be confused as I was saying not to throw your cures and enhancers away and in the next sentence, I am saying I replace mine every year; my job gives me access to our large warehouse stocked with thousands of each cure and enhancer, making it easy for me to change my cures whenever I want. I will always make sure that I change my wind chime, Pi Yao, salt water cure, six coins and ba gua mirror as these work very hard throughout the year and my situation allows me to change them. If you can afford to replace your cures, I would make sure you swap your ba gua mirror each year as these work the hardest out of most cures, absorbing all of the negative energy from the outside world and the reason that we only sell wooden ba gua mirrors is because they weather after about a year which is a good time to replace them. You may have seen stores selling plastic and metal mirrors, and I would not recommend using these as they are not designed to be repeatedly cleansed and reused. You must never use a plastic or metal ba gua (pa kua). Certain Feng Shui Cures and Enhancers could last you a lifetime although there are some Cures and Enhancers that simply must be replaced every Chinese New Year. Last year, we had someone contact us asking for advice for placement for a box of Cures that had been passed down to them from a relative, and it turned out that they actually came from our shop and we always advise to pass Cures down to future generations as long as they have been cleansed.

To cleanse your Feng Shui cures and enhancers, follow the instructions below.

- Make a note of the cures placement on paper, so you know where it goes back
- Clean the cures with water carefully
- Sprinkle with rock salt. You can also use normal salt
- Place outside and leave overnight under moonlight (you can also do this under the sun for 4 hours)
- Rinse cures and dry them off
- Place cures in their appropriate compass sector

All of our Cures and Enhancers are cleansed of negative energy and empowered with positive Sheng Ch'i when we first receive them and also when they are sent out which makes them much more powerful.

I would recommend that even if you have our cures and enhancers kit from twenty years ago, you can still carry on using the majority of it, but please ensure that the following items are replaced annually as these hold a great deal of negative energy and can cause problems if kept for too long. We get a lot of phone calls and emails asking about throwing away cures due to damage; I would recommend throwing a cure away if it is chipped on the part of the main part of the cure such as a head or hand. I would not worry if there is just a small chip on the corner of a Fu Dog or something similar.

Please **never** throw your Wu Lou or wealth ingot away as these are specially made for us and are the correct weight and size and I think they are a work of art and extremely powerful; I tend to get some metal polish every few years and go over my Wu Lou's and wealth ingots with a toothbrush to bring them back to their original shine before I cleanse them.

- Salt water cure
- Six Chinese I-Ching coins in a row
- Ba Gua mirror (Only if it is looking weathered)

I cannot afford to purchase these cures or enhancers this year, and my partner does not believe in Feng Shui, what should I do?

Normally, someone who does not know much about Feng Shui imagines a house that looks like a Chinese restaurant with large waving cats everywhere and Dragons behind the till. Over my years as a Feng Shui consultant, I have visited many Chinese restaurants, and you would be amazed at how much needs to be moved around in some of these places. Feng Shui is not about having your house covered in Cures and enhancers; it is about using carefully selected cures in the right position to make sure they are as effective as they can be. You can also avoid problems and enhance your property by using colours, objects and the five elements - metal, water, wood, fire, earth. A lot of people also think that Feng Shui is religion and goes against their current beliefs; Feng Shui is more a way of life that helps to make the most of any situation rather than a religion. If you don't want to have a Wu Lou beside your bed or six Chinese coins in a row in the northeast or southwest for 2019, there is always another option such as placing it out of sight in a cupboard or behind a picture frame; the cures will not be as effective inside a cupboard although they will still be most effective when they are clearly on show but can still be placed out of sight. We have a lot of clients who place their six coins in a row behind a picture frame if they do not want it on display and if you do not wish to have them out for everyone to see, you can place them wherever you wish.

I would recommend using good quality heavy metal ornaments in the northeast and southwest of your home or office in 2019 as long as they are smooth, round shapes such as a gym weight or dog bowl; you should avoid sharp, menacing objects such as knives or similar.

If you do not want to place a salt water cure or cannot afford to do so in the southwest and northeast in 2019, an alternative to this is a bowl of ultra-clean, still water and while this is not as noticeable, it is a lot more discreet and is also a free option. Please ensure that the water is checked daily and does not get stagnant or get covered in dust as this can cause a lot of problems in your home or office. I do not always like to recommend using a bowl because they can get dirty especially if you live in a hot country and can cause many problems, so please be careful with this if you do not use the salt cure.

You should try to place some real quartz crystal in the centre and east in 2019 as this is where the #6 and #8 annual stars are located from the 4th February 2019 or you could also place some objects that are made of earth material but try to keep any objects placed in the centre or east square in shape as this will enhance the annual stars during the year of the Pig and strengthen wealth and luck in your home or office during 2019. The most powerful and influential cure and enhancer for 2019 is the [Madaochenggong Master Cure](http://www.fengshuiweb.co.uk) and this cure can only be used in a Yin Earth Pig Ji Hai year. The last time that this powerful cure and enhancer would have been used was in 1959 which was also a Yin Earth Pig year although only a privileged few got to use it.

This cure is used to protect and enhance wealth and good luck in 2019 and as this falls in to the centre in 2019, it can affect everyone of all ages in the home or office and will be needed, especially for wealth in 2019. If you want overall protection for the whole of your home or office this year, I would recommend taking a look at our [2019 Cures and Enhancers kit](#).

Whenever we write all of the annual advice, we do not do this just to try and sell you something; if you look at all of the information below, you will see that we usually offer more advice for free alternatives to each compass sector than we recommend products. Every year, we receive thousands of emails and phone calls from people all around the world asking what cures they should buy from us and although this is terrible business practice on our part, the first thing we advise is to make sure their home or office is free of clutter and to take a look through this article and implement the free recommendations.

So, what exactly is flying star (Xuan Kong) Feng Shui?

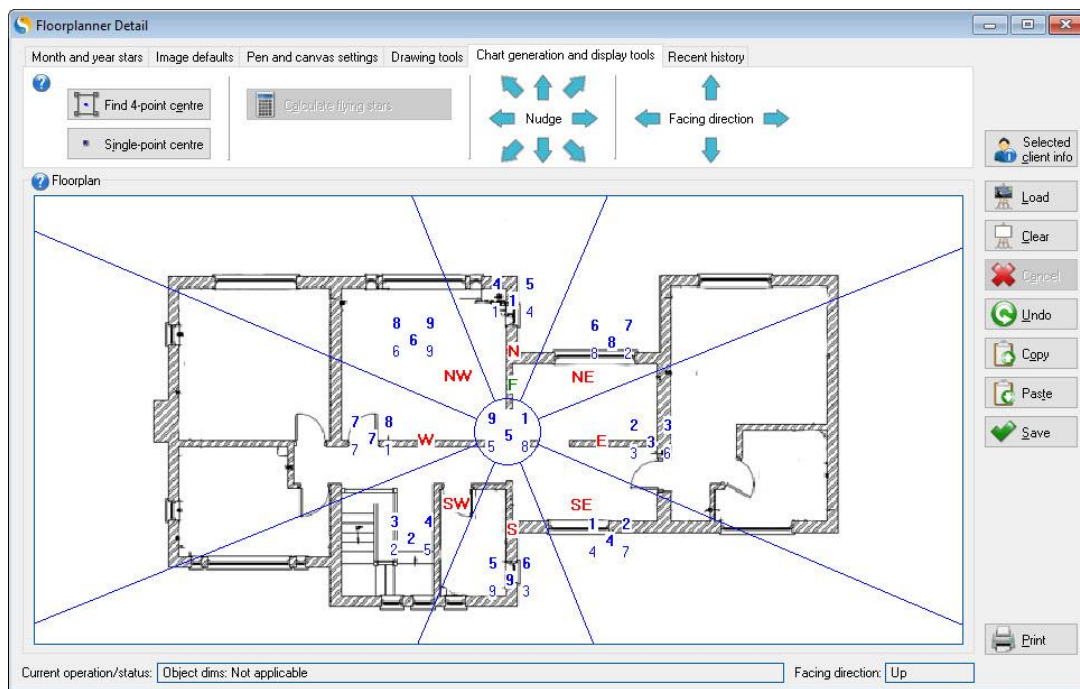

Flying star (Xuan Kong) Feng Shui is the most powerful form of Feng Shui that is used by most professional Practitioners, and although you may think so, it has absolutely nothing to do with astrology. Flying Star Feng Shui is an analysis of the five elements, land formations and star combinations that occupy your building and is not just limited to the home; over the years, I have consulted on farms, restaurants, universities, complete high-rise buildings, storage units, movie sets and much more. Every Chinese New Year sees the annual stars change in every sector of your building and with this, it brings good and bad energy to different sectors of the property.

For the last 20 years, we have been giving accurate information on the Monthly and Annual Flying Stars and have given free information and advice on how you can weaken, neutralise or enhance the different areas of your home or office every month and year. Every single building throughout the world will have these changing annual stars, and nobody will be exempt from this apart from those who travel every few days and you will need to take into account the Flying Stars ability to cause harm ranging from, sickness, wealth problems, legal problems, gossip, relationship problems and just overall bad luck but the good side is that the Flying Stars will also bring auspicious good luck in wealth, health, romance, education and overall good well-being. Flying Stars will always affect whether people believe in them or not so please take this in to consideration for friends and family.

Unless an auspicious star is activated in the home or office with the appropriate colours, objects and cures and enhancers, it is of no benefit to you, so please be sure to follow our advice carefully. Flying Star Feng Shui is extremely powerful and can explain a lot about what is going on in a home; every time I visit a client for a consultation, or they call up to make an appointment, I make sure that they do not tell me anything about what is going on in their life as the Flying Star Chart can tell me all about their situation.

A sample of a Flying Star chart (natal chart)

HOW TO FIND THE 2019 COMPASS SECTORS WITHIN YOUR HOME OR OFFICE

The first thing you will need to get your hands on when trying to find the compass directions of your home or office is a copy of the floor plan! The best option is to contact an estate agent or architect for the original copy of the plan although you can get a good idea of the boundaries in the building with a tape measure and some help. When drawing the floor plan yourself, please try to draw it to scale as best as you can. If you are hesitant of drawing the floor plan yourself, try measuring the outside walls and scale this down accordingly; if you Google search “scale drawing calculator”, you will find some great websites to help with this. You can get a lot of Apps on your Iphone or Android device that maps out your rooms using the phone's camera. If you have our Feng Shui Software, you can do your floor plan within the software which makes it very easy.

Secondly, you are going to have to divide your floor plan into nine equal grids in the shape of a tic tac toe board or wedges in equal proportions as shown below. Next, you need to know the compass direction of your home or office. If you do not know how to take a compass reading, **[please visit this page](#)**.

After you have taken your compass readings; you will have a good idea which area falls in to which direction and you can then overlay the year's Lo Shu grid (annual stars) according to the eight magnetic directions and plan how to make the most of the year of the Pig; If you already know the fixed Flying Stars for your home or office, you can check how the annual stars coincide with them. So, in 2019, you will see from the floor plan below that the #5 star falls into the southwest area for this home, which in the majority of homes will fall in to either a bedroom, kitchen, study or living room and could cause problems if you do not place any cures. I know this will sound like a hard sell, but our [Feng Shui software](#) does do everything for you ensuring that no mistakes are made.

This chart below was created with our [Academy of Feng Shui software](#) using the Floor planner section.

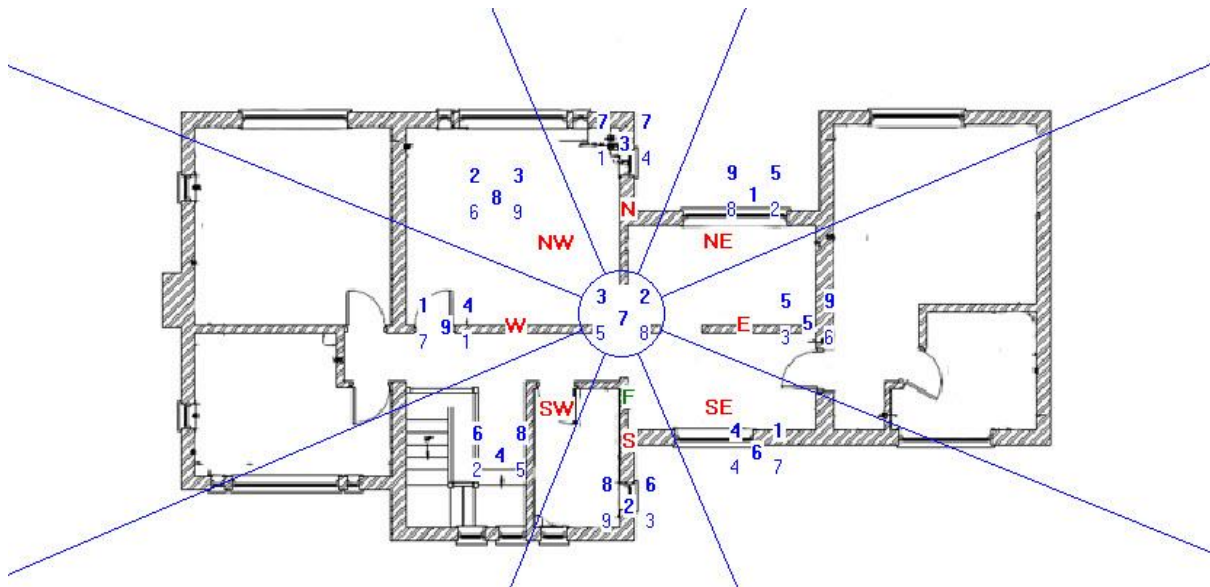

- The top left number is called the mountain star and affects the health and well-being of the occupants in the home.

- The top right number is called the facing star which affects wealth.
- The middle number is called the period number and comes from the year the home was built.
- The bottom right number is the 2019 Annual flying star.

By taking a look at the chart below, you can see where all the annual stars are positioned along with the mountain and facing stars etc. which is why the Academy of Feng Shui software has become the industry standard with masters and enthusiasts alike. The chart in the home below is a very special chart called a “Combination of ten with sitting” which requires careful analysis, and the software explains in great detail how to get the best result for this home and also every other home in any age in any country in the world.

Whenever I take a call from a client about requesting a consultation, the first thing I say is that I do not want to know any personal details as the Flying Stars, along with the land formations of the home tell me everything I need to know about health, wealth, career and every other aspect of their life.

The chart below is for a house facing 181 degrees south 2 (Wu) built in 1999

“A house is made of bricks and beams. A home is made of hopes and dreams.”

Avoiding bad luck in 2019

Looking at the chart above, you will see that we have the #2 black star enter the northeast of the lo shu in 2019 and we are going to need special cures and enhancers in the northeast to weaken the malevolent influence of this star. At the least, I would hang a set of six Chinese coins tied with red ribbon and also place a salt water cure in the northeast and southwest in 2019 to control and weaken the annual #2 and #5 stars. For full details on **2019 flying star analysis follow this link**. This is very important in 2019 especially if you have the main door, bedroom, office, lounge or other important room in the southwest, south, southeast or northeast.

This is just a small part of what you can do to ensure 2019 will be a good year and to enhance 2019 further I would suggest checking out the **monthly almanac, flying stars and animal predictions** as it not only recommends good and bad days to carry out certain tasks, it will also advise if it is good for your animal sign.

If you would like to be informed in advance of the monthly, annual and fixed flying stars giving you the ultimate control of your home or business, you should consider our [2019 advanced Feng Shui software](#); it is used by thousands of Feng Shui Masters, Practitioners and students throughout the world. Combining this with our new incredible and extremely powerful [Tong Shu Almanac date selection software](#) this will make 2019 a better year indeed.

The Three Killings – west (232.5 - 307.5)

It's essential you avoid making any form of deafening renovations or re-decorative work in the west part of your home or office between 4th February 2019 and 3rd February 2020. You should not disturb the ground by digging holes (small holes for plants is fine), build foundations or conduct any maintenance work with any loud equipment in the areas inside or outside your property or garden.

If you have no option but to perform work in the west in 2019, I would recommend that you place a **six hollow rod metal wind chime** along with six Chinese I-Ching coins and a salt water cure in the west during 2019. We take this very seriously at the Feng Shui Store as we've seen some pretty nasty events over the past 38 years when this energy has been disturbed.

There are also another two other rules that you should follow regarding the Three Killings in 2019. Firstly, if you are moving your desk around this year, never sit with your back towards the west, it is better to face west instead.

If you have a door in the west in 2019, please take a lot of care when opening and closing the door to make sure it is not slammed. Settle and avoid the influence of the Three Killings by opening and shutting the door calmly or install a soft close hinge.

Urgent repairs to your home or office in the west during 2019 will need a cure to prevent any negative consequences. You can place a six hollow metal rod wind chime between the building and where the work is being carried out or ideally, contact a professional Feng Shui Consultant to select an auspicious date to start the work. Our [Tong Shui software](#) will also easily calculate the perfect time for you.

Tai Sui (The Grand Duke of Jupiter) - northwest (322.5° - 337.5°)

Like the Three Killings, Tai Sui does not like to be disturbed either. The effects of Tai Sui can be good or bad depending on the annual flying stars that coincide with its location.

If your property or front door faces northwest in 2019, much like the Three Killings, you must try to avoid doors from slamming when entering or leaving your home or workplace. You should avoid digging or renovating your property in this area at all costs in 2019. If you have an office or shop door in the northwest this year, I would recommend installing a soft close attachment. The traditional Chinese method to appease Tai Sui is to place a [Xie Tai Tai Sui plaque](#) along with a [Three immortals](#) to pay respect and appease the Deity and also enhance the annual #9 star.

By paying respect to Grand Duke of Jupiter, we can weaken or avoid the problems this can bring.

Sui Po (Year Breaker) - southeast (142.5° - 157.5°)

Sui Po year breaker occupies the division directly opposite Tai Sui Grand Duke, which for 2019 is the southeast. You should treat this area the same as the other annual afflictions with no ground-breaking work, renovations or any loud activities. If disturbed, this area can and usually will cause immediate health problems especially with regards to the elderly, so please be very careful with the southeast of your home or office this year. Traditionally to appease Sui Po in a Pig year, you need to display a [9 Tier Wen Chang Pagoda](#) which works to appease Sui Po and also weaken the annual #7 in 2019 which we have included in all of our [2019 Cures and Enhancers Kits](#).

The annual five yellow star - southwest (202.5 - 247.5)

The annual 5 yellow has flown to the southwest in 2019, and this is not good and the reason why so many specialist cures are needed in 2019. It is highly recommended not to disturb the southwest of your home or business with noisy activities, renovations or maintenance work this year. When disturbed, the Five Yellow can bring disaster, sickness, lawsuit and major loss of wealth so please be very careful in the southwest in 2019 as it is very afflicted. In 2019 you must place a set of six Chinese i-ching coins tied with red ribbon, a six-rod hollow metal wind chime and a salt water cure in the southwest to avoid the problems that are associated the #5 yellow disaster star.

Water placement in 2019:

As we entered period 8 (4th February 2004), the use of water outside is critical up until 2024, a pond/water feature positioned outside in the correct area can really work in your favour although you should not site a pond/water feature unless advised by professional Feng Shui consultant, you can, however, safely place water outside in the southwest up until 2024.

Outside water placement in 2019:

Outside water can be placed in the southwest or east as this is your primary and secondary wealth areas for the next five years. In 2019 water outside in the centre is good but please only do so if you know what your natal chart (flying star chart), are confident that you understand your land formations and you also have a good facing star this would make a very powerful combination for wealth. If you do not know the layout of your natal chart or do not know how to create one take a look at our [Feng Shui software](#) as it does all the work for you. It can be quite hard to place outside water in the centre this year unless you have a u-shaped house.

Indoor water placement for 2019:

If you have to use indoor water in 2019, the best area is in the centre as this will help to activate the auspicious #8 star for the year of the Pig. Regardless though, it is better to seek professional advice before placing any water feature inside or out as in Feng Shui it is the catalyst to good and bad so please take care and consult or use our software.

If you decide to use water inside your home or around the outside during 2019, it is vital that you make sure that you keep the water clean at all times and that it is flowing water as this is very different from using stagnant water. Do not let the water stagnate as this can cause Qi to become trapped and bring Yin energy which can stop positive Qi entering the home or office. Using water in Feng Shui is a very powerful tool and is the essence of Feng Shui (Shui meaning water). The Qi around the home or office is caught by the water and is then cleansed and distributed around the building provided the water is clean and flowing. If you look at our resource pages, you will find more detailed information on water placement for 2019 and beyond.

Whilst the methods above are considered safe, there are many exceptions to the placement of water, and as Master Practitioners and teachers we use many more methods of water placement for wealth, education and relationship, these methods whilst extremely powerful can only be used with expert guidance and a full analysis of your property and land formations, please [visit this link for more details](#) of a consultation or home/business visit.

Salt water cure after just four weeks.

Every year, we receive thousands of emails from people with all different levels of knowledge in Feng Shui with wonderful testimonials about the salt water cure saying how the cure has helped change the energy for the better in their home and office and it always makes my day to receive positive feedback; luckily, it is extremely rare for us to receive any negative feedback which makes us very happy! The Salt Water Cure is an extremely powerful and little-known cure and one that we have used in our home, warehouse and office for over twenty years. We replace the Salt Water Cures once a year at the least and sometimes they need to be replaced within a few months as they remove so much negative energy from the surrounding area. You should place the Salt Water Cure in the northeast and southwest of your home and office from the 4th February 2019 to weaken and control the annual #2 and #5. Please do not try to reuse the coins from last year's cure or coins from other cures as they should be replaced when setting up a new cure.

When we are dealing with the flying stars, there will be many exceptions to be made; for example, If you have an annual #5 in your living room during 2019 in an open plan house or an open office, the energy from the #5 yellow's presence can drift in to another part of the home or office so it is always best to treat the negative areas rather than take an out of sight, out of mind approach; having the annual #5 in a broom cupboard or lesser used room is very good as the chances of activating this star are a lot less likely although it is still vital to treat. Try to think of the annual stars such as the #5 as perfume; if you sprayed some perfume in your bedroom, you would probably be able to smell it downstairs as the smell drifts around the building. If possible, it is always preferable to avoid rooms with negative stars although I would still recommend placing the necessary [Cures and Enhancers for 2019](#).

I need to get rid of my old salt water cure; what should I do?

When it comes to replacing your salt water, I would recommend replacing it at the end of the year at the least or when it has grown too large. In my home, I tend to change my salt water cure when the salt starts to form a few millimetres below the glasses brim; to me, this is a sign that the salt cure needs to be replaced and has absorbed enough negative energy.

Once you place your Salt Water Cure, you should not move it until you decide to dispose of it as disturbing it could release the negative Qi that the cure accumulates. When you come to remove your Salt Water Cure, you should carefully place the whole thing (salt, water, glass and coins) in to a Tupperware type container or water tight plastic bag inside a cardboard box and dispose of it in a recycling bin straight away. If you do not have a Tupperware tub to dispose of the salt water cure, you can carefully pour the water down an outside drain although I do not like to recommend this and this is more of a last option scenario.

We have had people say to us that they have still got the same salt water cure from 5 years ago which is extremely dangerous and not worth the risk. Please replace your salt water cure every Chinese New Year at the very least. We try to keep our salt water cures as cheap as possible so that

they are available to the majority and all of the coins we use come from a good dynasty making them even more effective.

Annual Flying Stars for 2019, year of the Yin Earth Pig (Ji Hai)

Please bear in mind that the analysis that we give below can only be given from a general point of view of how the annual Flying stars will affect the different compass sectors for the year ahead. How each area affects the wealth and health aspects of the residents depends vastly on the quality and combination of the 'facing' and 'sitting' stars of the property's natal chart and we cannot account for this in the report below.

If you have previously had a consultation with Master Michael, he will be able to advise you more accurately how the Flying stars for 2019 can affect your home or business. If you have a copy of the Academy of Feng Shui software, you will be able to automatically calculate your star chart and explain where all of your wealth, career, health, and relationships areas located.

Please take your time when reading through the report for the annual flying stars for 2019. When you first read the analysis, it may seem as though 2019 will bring lots of problems although you will soon realise that there are many ways to control the negative influences and enhance the positive ones, making the most out of the year of the Pig. If you would like to know more about what the year of the Pig has in store for you on a more personal level, I would consider looking at the [2019 Feng Shui Guide](#) Or our [Feng Shui online report](#).

In 2019, we have the annual #8 star fly in to the centre for the year which can bring a great deal of wealth luck when activated correctly. The #8 star is the primary wealth star for period 8 (2004-2024), and when it falls in to the centre and is activated, this will resonate in to all of the nine compass sectors. I would place a lottery ticket in the centre of your home or office in 2019 as this will greatly increase your chances of welcoming unexpected sums of money in to your life and also increase your chances of winning the lottery. The lottery ticket in the image below has been created and personalised to an individual's unique lottery numbers with our Feng Shui software and taken from their birth date and just by placing it in the centre or west can increase your chances of a win tremendously. If you own the software, you increase your chances even more as it calculates even more advanced formulas to tapping into wealth and good luck.

Kan 1 White 坎 In 2019, Kan trigram is in the west

Kan #1 is a water element. In the physical body, it is the ear. Internal organ it is the kidneys, and it is also blood. It also affects career and luck.

As of the 4th February 2019, the annual #1 Kan (Tan Lang) water star has flown in to the west of every home and office all around the world. The inherent energy of the west is metal which brings a nice relationship between the two elements as we have metal enhancing water. Overall, the west is a lovely area in 2019, especially for the youngest daughter of the home or business in 2019 and will also have a positive effect on all females this year.

Although we have the positive #1 star fly in to the west for 2019, we also have the Three Killings located here for the year, so it is important that the west is treated carefully during the year of the Pig and the area is not activated with a loud noise, banging or drilling. The west will need to be treated with the appropriate cures and enhancers in 2019 if we are to avoid problems in this area.

If your home or office has a front door in the west in 2019, it is very important that you do not slam the door and if possible, I would suggest that you install a soft close hinge, as loud noises can activate the maleficent effects of the Three Killings. You must also aim to avoid any internal doors or windows being slammed in this area during 2019 and avoid digging or renovating your property in this area at all costs. If you have no option but to undergo heavy work this year, please make sure that you follow the advice below and also have the relevant cures in place and try to do so when an auspicious monthly flying star flies in to the west which would be in February, May, June, July, September or November.

It is almost inevitable that you will come across a sector of your home or office where you have an auspicious star fall in to the same area as one of the annual afflictions. This can be very off-putting, but if you are careful and respectful of the area, you can still reap the rewards that the annual #1 star can bring to the west in 2019. Peace will be vital in the west, along with a Dual Dragon bell Heng Lung fu hanging here from the 4th February 2019 to the 3rd February 2020.

The [Dual Dragon bell Heng Lung Fu](#) is one of the most powerful symbols in Feng Shui and symbolises power, leadership and authority. Also known as the sound of power, the bell was a tool held by high-ranking officials, academics, nobles and Royal members of Imperial China in ancient times and is an essential cure for the west in 2019 and especially the eldest daughter and female of the home or office.

If you have any poison arrows such as a busy road or power lines, you should place a [Ba Gua mirror](#) outside pointing towards the poison arrow; if you are unsure which mirror to use, a Ba Gua wealth protection mirror is the safest bet for the west during 2019.

If you place one cure in the west for 2019, I would recommend placing the [Dual Dragon bell Heng Lung Fu](#) as this is cure works perfectly here and can bring in new opportunities, gains in financial investments, academic achievements and also romance and relationships as peach blossom for 2019. As with every year, we include these as standard in our [2019 Cures and Enhancers kits](#) as they are a vital cure for enhancing the #1 annual star.

If you cannot afford the dual Dragon bell or you simply do not wish to use traditional cures, I would make sure you place some water colours in the way of bedding, pillows, lampshades, rugs etc. such as blacks, greys and blues. If you have a bed in the west this year, I would recommend placing a [brass Wu Lou talisman](#) here to protect wealth.

You should avoid fire colours in the west this year as this will drain the energy of the annual #1 star. The west is not a good area for candles in 2019.

If using furniture and decorations in the west this year to enhance the #1 star, you should place furniture with waves and ripples as this is a great water cure

[Click here to view our range of cures and enhancers for the #1 star in the northwest for 2019](#)

Summary for the annual #1 star in the west in 2019:

The best months during 2018 are February, May, June, July, September or November.

Take extra care in March, April, August, October, December and January and check back on our free monthly Flying star advice to further analyse these months.

Enhancement summary and advice for the #1 visiting the west in 2019

- A brass Wu-Lou would be good for a bedroom that falls into the west along with blue, black, grey or charcoal colours. This is especially so if you are not in good health and if you cannot buy a wu lou place a heavy round object close to your bed but avoid candles or colours red, pink, purple or any fire colours.
- Place a [Dual Dragon bell Heng Lung Fu](#) in the west in 2019 to enhance the #1 star
- Avoid candles or fire colours like red, pink, purple, orange or burgundy in the west in 2019, blues, blacks, grey or charcoal are good colours to use.
- Metal objects are good to place in the west in 2019.
- [Clicking here will take you to our page of all of our cures and enhancers for the annual #1 star](#)
- Naturally not as powerful but round metal shapes are an alternative to using Feng Shui items but avoid sharp or menacing looking metal objects.

Kun 2 Black 坤 In 2019, the Kun 2 Black (Ju Men) visits the northeast

In 2019, we have the mincing #2 star enter the northeast of every home or office for the year which makes this area very unpredictable without the necessary cures and enhancers. By weakening the annual #2 in the northeast, we can greatly weaken the chance of issues relating to wealth, illness, disease, stress, back stabbing and overall bad luck making this a vital area of the home or office to treat during the year of the Pig.

The #2 is one of the worst stars in period 8 and should not be left untreated; this can cause a whole range of problems to the occupants of the home or office when activated with noise and energy or if you have the wrong elements and colours in place for the year so please take my advice on the northeast for 2019. If you have a bedroom, office, lounge or other room that is used a lot in the northeast in 2019 and you are not able to avoid this area, please read the advice below carefully.

The best solution would be for the northeast to fall in to a bathroom, spare room or storage space as these rooms are not used as often as a living room, bedroom or kitchen and are a lot less likely to be activated. Michael and Jo have their front door located in the northeast and in 2019, they will need to be extremely careful when using this door as slamming could activate the #2 star and cause a lot of problems. I have purchased a rubber wall mount to stop the door handle smashing against the wall and will be looking in to soft close hinges for them.

If your front door, bedroom, office, lounge or other well-used room is located in the northeast, this will inevitably activate its malicious effects, so read on...

The #2 star will affect the health of those under its influence and can bring problems relating to wealth, illness, disease, stress, back stabbing and overall bad luck so please take this advice seriously and do not leave the northeast untreated and see what happens this year. This is especially so for people who are a Gua #1, 3, 4 or 9. Check on this page if you do not know your Gua number [eightmansions.htm](http://www.fengshuiweb.co.uk/eightmansions.htm) or if you have our [Academy of Feng Shui software](http://www.fengshuiweb.co.uk/academy-of-feng-shui-software) you can calculate your Gua and best directions.

The best treatment for the northeast in 2019 is to place a [Kwan yin Pu Sa amulet](http://www.fengshuiweb.co.uk/kwan-yin-pu-sa-amulet), [salt water cure](http://www.fengshuiweb.co.uk/salt-water-cure) and [six Chinese coins tied with red ribbon](http://www.fengshuiweb.co.uk/six-chinese-coins-tied-with-red-ribbon). You should also introduce some metal cures from the 4th February 2019 such as a Wu Lou, metal singing bowl and other similar objects although please ensure they are not menacing looking; a round, smooth metal shape is the best option to dissipate its negative influence in the northeast of your home or office in 2019. You should avoid pointy or sharp shapes in the northeast in 2019 as this can be counterproductive.

The [Kwan Yin Pu Sa bell](http://www.fengshuiweb.co.uk/kwan-yin-pu-sa-bell) is a very powerful cure for the northeast this year, and the special arrangement of the image of Kwan Yin, beads and bells is a powerful combination and can also be used for cleansing the energy in a home or office.

Another powerful cure for the northeast year is a statue of Tsai Shen Yeh in a gold colour. The God of wealth statue is very good at weakening the bad earth and also protects wealth for 2019, making this a very powerful cure.

I would avoid having any red coloured decorations in the northeast this year and avoid burning candles here this year as this will aggravate the influences of the #2 and cause problems. If you had a red sofa in the northeast, for example, I would cover it with a white throw. Do not panic if you already have fire colours in the northeast already; you can negate this by introducing metal colours such as white, silver, gold, bronze or copper in the way of pillows, throws etc.

The #2 flying in to the northeast for 2019 will affect the youngest male or any male in the home for that matter so all males should be careful if they spend time in the northeast in 2019 and make sure they have the appropriate cures and enhancers in place. If you are unable to avoid this, please make sure that you have the necessary cures in place along with metal colours. If you have our software, check the Min Gua section to find your best sleeping direction.

A [Metal Wu Lou](http://www.fengshuiweb.co.uk/metal-wu-lou) beside your bed is a good cure if you have no option but to sleep in the northeast of your home this year as this symbolises good health and dissipates the negative energy of the #2 star. Because the northeast is associated with the youngest son of the home the youngest male member of the home or business can be affected so make sure if he sleeps, works or spends a lot of time here all cures are placed. Be very careful in March 2019 as the northeast is at its worst then.

Do not decorate your room in 2019 with any fire colours this year such as reds, oranges, purples, burgundy, lilac or pinks as this will aggravate the #2 star. You should also avoid burning candles in the northeast this year.

The most important cures that you can place in the northeast during 2019 are the salt water cure and six Chinese coins tied with red ribbon along with the [Kwan Yin Pu Sa bell](#) and why they come standard in all our [2019 Deluxe cures and enhancers kit](#).

The best cure for the northeast in 2019 is avoidance of the area altogether which is extremely hard to do, but if you are fortunate to avoid 1/9th of your home, I would still recommend placing the cures for 2019.

Avoidance of this area is the best cure although I know this is hard so try and follow the advice and try and keep it as quiet as possible.

Now that I have given you all of the negative points for the northeast in 2019, I will now give some hope for those who are Gua

Now having given you all this bad news, I will now give some hope for those who are Gua 2, 6, 7 or 8 as while this combination, on the whole, is very bad, it can be good for them in wealth and career, you would still be wise to place the recommended cures as detailed here but the effects of the #2 black will not be bad for you and can even give you positive results.

[Click here to view our range of cures and enhancers for the #2 star in the northeast for 2019](#)

Summary for the annual #2 star in the northeast in 2019:

I would avoid activating this area with loud noises at all costs. Keep this area quiet and avoid building work or refurbishment if possible although it is not too bad. If you do need to carry out building work, do so during March, June, July, August, October or December.

Do not use any fire element in the northeast this year or colours red, pink or purple. Keep doors closed. Place a Wu Lou, salt water cure, gold Toad, wealth ingot and six coins here along with metal ornaments. Use colours white, silver, gold or copper.

Better months are March, June, July, August, October or December.

Take extra care in February, April, May, September, November and January.

- Hang a [Kwan Yin Pu Sa bell](#) in the northeast of your home or office in 2019
- Place a salt water cure in the northeast for 2019
- You don't need to place a load of Dragons and bells; you can use any metal ornament as long as it is not sharp or aggressive looking. Believe it or not, a good cure is a round metal dog bowl or weight lifters weights.
- Hang six Chinese coins tied in red ribbon.
- A brass wealth ingot is good for protecting wealth in the northeast this year.
- A metal singing bowl is very good as is a stainless-steel Dog bowl.
- Place a gold coloured three-legged Toad with an i-ching coin underneath.
- Place a Wu Lou and other metal ornaments to dissipate the negative earth.
- Avoid using red colour in this room and refrain from displaying triangle shape or fiery pictures.
- Avoid candles or bright lights at all costs. Check or upgrade smoke alarms and other fire prevention methods.

Chen 3 Jade 震 In 2019, the sound of Lu Chun #3 Jade can be heard in the south palace in 2019

In 2019, we have the annual #3 fly in to the south making this a not so nice area for the year. Those who spend time in the south during 2019 should be aware that they could be at risk from possible thefts, wealth loss, arguments, disputes, legal issues and hot tempers; this is especially the case if you have a bedroom or office in the south or if you are the middle daughter of the home or any female for that matter. Please do not panic if you spend a lot of time in the south as this area can be treated with the relevant cures and enhancers for 2019 to avoid issues that the #3 star can bring.

To remedy the effects of the annual #3 star flying in to the south in 2019, I would recommend introducing red; fire coloured objects in to this area for the year such as a red floor mat or sofa throw. You can also introduce candles, lamps and lights in to this area for the year to weaken the bad wood star. Please avoid having metal in the south in 2019 (metal colour is OK) to control this energy for you will aggravate it, restricting the beneficial influence brought by auspicious monthly stars in certain months and magnify its negative influence.

Unless you have a good understanding of your fixed flying stars or have had a practitioner advise you to do so, I would not recommend placing a water feature in the northeast of your home or office in 2019. To add water where the #3 star is located can bring arguments, wealth issues, divorce and legal problems in to your life; unless you take your land formations, period, mountain and water stars in to account, please be very careful.

You may have read in some books or on websites where they say that the #3 wood star can be a good one in period 8 (2004-2024) but in my opinion, it is an extremely unpredictable star, and you should not try to activate it unless you know what you are doing with regards to the flying stars or the Academy of Feng Shui software has advised you to do so.

When dealing with paperwork and documents during 2019, please make sure you take great care and check through everything thoroughly before agreeing to any terms or conditions. The energy that the annual #3 star brings to the south can bring arguments, disagreements and even lawsuits. Please remember to take care as a lack of attention could end in a loss of time, energy and resources.

If you have a main door in the south during 2019, I would recommend using another door to enter and leave the house if you can; most of us won't have this luxury, and if you have no choice but to use the door, please make sure you do not slam it shut. I would also recommend hanging a ba gua wealth protection mirror above your front door in the south for 2019 for added protection.

In 2019, we have the visiting negative earth being activated by the inherent fire energy, and without cures and enhancers, the #3 star will cause havoc. To weaken the #3 star, you should place a [Zhaocai Ruyi toad](#) in the south of your home or office in 2019.

You may think that I am exaggerating with how careful the south needs to be treated in 2019 although we will be taking extreme care as Jo's office is in the south, and she spends a lot of time there so for 2019, I will be making sure to place the Zhaocai Ruyi Toad along with a red task light that will be turned on throughout the day when the room is used.

Remedies and advice for the #3 visiting the south in 2019

- Place a light in the south If you have a choice, a lamp with a wooden stand and a peach/red shade is better. Try to leave it on whenever you are using the room.
- You should avoid hanging wind chimes of any material in the south in 2019, especially metal wind chimes as it will worsen matters.
- Take extra security measures for the whole home or business during 2019 and check smoke alarms regularly.

- Place a [Zhaocai Ruyi toad](#) to suppress the negative influences of the annual #3 in the south for 2019
- Check through everything before signing documents, especially if your office is in the south.
- Beware of backstabbing, as sometimes it is unseen and behind your back and also from someone you thought you knew quite well.
- Introduce some fire colours in to the south for 2019 to weaken the #3 wood star.

Sun 4 Green ☰☷ In 2019, Sun 4 Green sits in the north of the Lo Shu square

In 2019, we have the Sun 3 wood star fly in to the north palace of every home and office around the world. The #4 is a conditional star, and in period 8 (2004 – 2024), it is an auspicious star. This star governs relationships, romance, career, travel, creativity, academic and artistic talents, wisdom and intelligence as well as self-development, making this a very powerful star. As we have the wood energy from the annual #4 star being fed by the inherent energy of the #1 water star, we can expect good things when the north is activated correctly in 2019.

To enhance this beautiful influence, you should place a [Shixian Wish and romance enhancer](#) in the north of your home or office during 2019. The Shixian Wish and romance enhancer is a very powerful Peach Blossom talisman and is a very effective manifestation enhancer for the north during 2019.

This cure and enhancer when used is also a manifestation enhancer, so it is good to place an image close to the crystals that represents everything you want to achieve in life, an example to some would be a picture of a beautiful home that you desire, a man or female that you admire, a car like a Ferrari or Mini, the number of children you would like, I think you are getting the picture by now, just create a dream board with all that you desire pinned to it or draw the image or you can even download some images from www.google.com this really is a very powerful way of manifesting your dreams, and it really does work. This cure and enhancer are so important in 2019 which is why we included it in all of our [2019 cures and enhancers kit](#).

You should be aware that although the annual #4 star is a very auspicious and powerful star if you were to leave the north untreated without cures and enhancers during 2019, you would be attracting both wanted and unwanted romantic opportunities to the occupants of the home or office so please be aware of this.

Having the main door in the north of your home or office during 2019 with the annual cures in place can bring in new opportunities and lots of chances to travel this year.

I would avoid using any fire or metal colours in the north this year; these colours are white, silver, gold, chrome, bronze, red, orange, burgundy, purple, lilac and pink. Introducing fire or metal colours in the north will destroy the auspicious influence of the annual #4 star so please be careful when decorating the north this year.

If you want to work with colours this year, I would introduce some water colours in to the north such as shades of blue, black and grey. You can introduce water colours by placing rugs, cushions, bed sheets, pillows etc.

When working with an annual star, every auspicious star also has an inauspicious aspect to its nature when the star is joined by an inauspicious monthly visiting star. The months that will affect the influence of the annual star are February, April, June, July, November and January. These months can bring betrayal, heartbreak, scandals and humiliation so; please remember to check back for our monthly flying star analysis.

You should treat the south as your relationship and creativity area for 2019 as it can be very good for the occupants of a home and office. If the north of your building falls in to an important room such as an office, bedroom or lounge, I would recommend keeping this area as clean and clear of clutter as you can; this will make a big difference.

If your main door falls in to the north, make sure that the area around the door is kept clean and clear of shoes both inside and out during 2019; investing in a shoe box can prove very beneficial during the

year of the Pig and every year after for that matter a dirty shoes can block fresh Qi from entering a home or business.

The most powerful cure you can use to enhance the #4 star in the north during 2019 is the [Shixian Wish and romance enhancer](#). This enhancer is used to strengthen Peach Blossom and help increase wealth, romance, career, educational and relationship luck. The Shixian wish, and romance enhancer has been included the standard in all of our [2019 Cures and Enhancers kits](#).

If you have your bedroom in the north, you can look forward to good relationships in 2019 if the north has been activated with the correct cures. This lovely influence can also increase the chances of producing intelligent children conceived and born during the year of the Pig. Another powerful cure for the north this year is to place a statue of a [blue Kwan Yin](#) in the north of your home or office.

If you are looking to conceive a child during 2019, I would recommend placing peanuts in shells (monkey nuts or groundnuts) or any seed products such as black or red melon seeds (Gua Zi). In Mandarin, peanuts are called 'hua-sheng', and for the Chinese, this word is onomatopoeic in that the sound of it means 'the birth of many children'. When placing them, they can be placed anywhere in the bedroom although I would keep them close to the bedside table. A good alternative if you do not want to display real nuts or if you have an allergy would be to a pair of mandarin ducks beside your bed.

Summary for the annual #4 star in the north in 2019:

With the [Shixian Wish and romance enhancer](#) in place and some good water colours in the north of your home or office this year, you should reap the rewards from this area; this is especially so if you are looking to enhance relationships and creativity this year. The north is a great area for writers, artists, students and anyone with interest in travel, crystals or health industry during the year of the Pig. You should avoid fire colours such as red, pink and purple and please try to avoid lighting candles in the north as this will weaken the good influence.

If you wish to enhance areas of creativity and academic achievements, place or hang moving objects to enhance the Ch'i of this sector, do not use wind chimes. Keep area semi active with windows occasionally open. You should try to avoid using metal items here especially wind chimes from the [2019 cures and enhancers kit](#). You should try to spend time in the north this year if you want to enhance romance, creativity or academic pursuits.

recommendations and cures for the #4 visiting the north in 2019

- Use blue in your décor if this is your office or bedroom.
- Place an Shixian Wish and romance enhancer in the north of your home or office
- For office and studies, place a task light and a crystal globe on the work desks. Blue items can be added on the desk, e.g. blue paper, blue books etc
- Avoid displaying too many metal objects in the north; especially large heavy ornaments such as dumbbells
- Fresh flowers or small pots of green leafy or flowering plants can be displayed in this spot of the house to lift the qi. Blue or green flowers are a good choice.
- If you have the Taohua mandarin Ducks, this is a good area to have them and any other symbols of romance like hugging couples etc.
- Place a Kwan Yin statue in the north
- Place photos of loved ones or images of love to enhance relationships or attract new love. This can do with photos, paintings or statues, make sure there is always a pair in the image.
- For romance, a Dragon headed Tortoise is very good

The 5 Yellow In 2019 - The annual 5 Yellow Lian Zhen star of tragedy is located in the southwest palace.

The southwest of every home and office is majorly affected in 2019 due to the annual #4 earth star flying in where we have the inherent #2 earth star which creates a menacing formation and if left untreated, can cause major illness and accidents, fatalities or bankruptcy so please do not leave the southwest untreated in 2019. This area will need some good quality metal cures to weaken this combination and should be kept quiet as much as possible as this area can be activated with human activity.

Although this is a very afflicted area in 2019, please do not feel that there is no hope; with Feng Shui, there is always a solution to a problem, and if you place the relevant cures and keep the area calm and settled, you can avoid activating this area in 2019 and avoid any problems.

My kitchen is in the north of my home, and I like to spend a lot of time in this area so for 2019, I will be taking the following steps to ensure I can still use this area and avoid problems –

- Place a [Salt water cure](#) on my windowsill
- I will be placing either a dumbbell plate or car suspension spring underneath my sink unit
- I will be hanging [Six Chinese i-ching coins In a row](#) in the southwest to weaken the #5 star
- I will be avoiding orange, purple, lilac, pink, burgundy and red decorations and tea towels in the southwest as this would feed the bad earth star and cause problems
- I will add lots of white, silver, gold, bronze and copper decorations in the southwest
- I will hang a [Six rod hollow metal wind chime](#) in the southwest for 2019
- I'll be avoiding having the radio too loud and be more mindful with how I open and close the oven door
- I'll try to avoid having the extractor fan on full

If the southwest of your home or office falls in to a bedroom, living room or office, you would follow most of the same steps such as the cures, colours and noise level. If you have the main door located here for 2019, please make sure it is not slammed shut or open. The thing to remember with the flying stars is that if this area is treated correctly and is kept calm, it will not necessarily be activated so, please try not to worry too much. I always try and deliver bad news with a positive approach as I am a strong believer that you can always turn bad in to good when you have the right attitude and while the southwest is extremely afflicted in 2019, you can still do a lot to weaken the malevolent influences that are present this year.

The worst thing you could do in the southwest from the 4th February 2019 to the 3rd February 2020 would be to take on any ground-breaking work such as replace window or door frames, knock through an internal wall, build an extension, lay a patio or other similar work. My general rule of thumb for small jobs such as hammering a nail to hang a picture or drill a hole is to minimise as much noise as you can; if you can use a manual hand drill, it is better to be safe than sorry.

If you have no choice but to perform ground-breaking or noisy work, try to get this done during a month when we have an auspicious star flying in which would be March, June, July, August, October or December and please ensure you have your cures and enhancers in place!

For 2019, I would strongly suggest placing these Cures in the southwest of your home or office:

[Six Chinese i-ching coins In a row](#)

[Salt water cure](#)

[Six rod hollow metal wind chime](#)

If you do not want to place these cures in the southwest in 2019 or cannot afford them, please do not panic as there is still a lot you can do to weaken the #5 star this year. Introduce plenty of good quality metal in to the southwest of your home or office this year and make sure any metal cures that you have from previous year are cleansed before the 4th February 2019; You should not reuse the six coins or salt water cure from last year as these absorb a great deal of negative energy and should be

replaced once a year at the very least. Good shapes are items made from metal that are round; even a stainless-steel dog bowl is a good cure. Do **not** disturb its position here with noisy activities, renovations or maintenance work. Houses with gardens to this corner of the property should avoid disturbing the ground with major digging or building work in the southwest in 2019.

The 5 Yellow also called 'Wu Huang or Lian Zhen' in Chinese, is one of the bad annual afflictions. It is a very volatile star. It has no gender and no trigram and is highly dangerous when disturbed. When disturbed, its malevolent influence brings disaster, sickness, lawsuits and major loss of wealth. Do be careful with it. Stillness together with metal cures can keep its negative influences at bay.

A pendulum chiming clock in the southwest is a very good cure this year, and while this contradicts what I said about keeping the area quiet, the chiming sound of the clock is as important as the moving metal of the pendulum. In the old days, they would have had someone striking a gong quietly every 15 to 60 minutes. All these cures are essential and why we have included three of them as standard in all our [2019 cures and enhancers kit](#).

Another powerful cure for the southwest in 2019 is to place a brass Wu Lou or gold coloured gourd to protect wealth and avoid legal problems, arguments, disputes and loss of wealth. If you do not like to use traditional Cures and Enhancers, add some good quality heavy metal in to this area, but please make sure it is in good condition and not covered in rust holes. I do not give this advice, so you have to buy from us, most of these cures and enhancers I recommend you can put together yourself.

Urgent repairs to your home or office in the southwest during 2019 will need a cure to prevent any negative consequences. The best way to weaken the negative influence when doing emergency work in the southwest is to place a six hollow metal rod wind chime between the building and where the work is being carried out or ideally, contact a professional Feng Shui Consultant to select an auspicious date to start the work. Our [Tong Shui software](#) will also easily calculate the perfect time for you.

You must **not** place red objects, bright lights, candles or red coloured furnishing in the southwest in 2019 as this will only cause harm and aggravate the #5 yellow. Do not worry if you have these colours already just introduce colours white, silver, gold or copper in the way of a floor mat, cushions, throws, tablecloth or such like. You can also use dark blue or black if you prefer.

If your bathroom, cloakroom, en-suite, guest room or a large cupboard is located here, this is good for you this year, because these areas are not used much, and therefore the negative power is not activated, I would still place the cures though regardless of what room is located in the southwest.

[Click here to view our range of cures and enhancers for the #5 star in the southwest for 2019](#)

Summary for the annual #5 star in the southwest in 2019:

Take extra care in February, April, May, September, November and January 2020.

You should not activate the southwest with loud noises or lots of activity this year; try to keep this area quiet as much as possible and avoid building work unless it is necessary and even then, try to carry the work out during a month when an auspicious star flies in. Try to avoid fire colours such as orange, red or purple. Introduce metal colours such as white, silver, gold or copper.

I know I've gone on about this part a lot, but It really is important; please try and keep the southwest of your home or office as quiet as possible during 2019 and make sure you have your cures and enhancers in place for the year, especially if the southwest is the main office, bedroom, living room or other important room.

- Keep doors closed in the southwest this year

- Do not decorate your room red or earth colours. Grey, blue or white beddings and curtains are good colours to use for 2019.
- Place a [salt water cure](#) in the southwest of the building along with [six Chinese coins tied in a row with red ribbon](#) and [six hollow metal rod wind chime](#).

- Do not place red objects, burning candles or triangularly shaped furnishing in this sector.
- Most of all, avoid disturbing the southwest at all costs. Any form of renovations that needs to be done plan it for another year if you can. It is worth keeping this in mind.
- Tsai Shen Yeh (God of wealth) in gold colour is very effective at not only reducing the bad earth but by also protecting your wealth for the year in the southwest.
- Replace or at the very least cleanse your Ba Gua mirror if you have one in the southwest. Especially if you have a door here.
- If you have a main door in the southwest, make sure you oil the hinges and try not to let it bang shut and oil squeaky hinges.
- If you use a fan or other machines that creates noise or vibration, try and avoid placing it in the southwest part of a room.

Ch'ien 6 White 乾 The star of Heaven Chien 6 White (Wu Qu) sits in the east palace in 2019.

The #6 white star is a compassionate money star and has flown in to the east for 2019 which can be very good for finances and career this year and anyone with a career in politics, leader roles, jewellery or raw minerals. If your main door is located in the east or you have an important room in this sector, this is very good as the human activity will help activate this area to bring fame, wealth, success and overall luck when activated with the correct enhancers for 2019.

Although an auspicious star that brings success and accomplishment, the annual #6 star can cause problems with the liver and legs if located in a bedroom in 2019; the cure for this would be to introduce some water colours such as bedsheets or curtains for the year.

Two powerful and crucial cures and enhancers for 2019 are the [Yingxiangleiqie Sheng Chi Cure](#) and the [Hong Fu Qi Tian Talisman](#) which work in synergy with each other to activate and enhance the annual #6 star, bringing fame and success to the occupants of the home or office in 2019. In 2019, we have the #6 annual star fly in to the east where we have the inherent #3 wood star which will be draining energy from the #6; we need to introduce some powerful earth cures in to the east to balance this energy and allow the annual star to be activated which is why we have included the Sheng Chi cure and Hong Fu Qi Tian talisman with all of our [2019 annual or deluxe cures and enhancers kits](#).

[Click here to view our range of cures and enhancers for the #6 star in the east for 2019](#)

Summary for the annual #6 star in the east in 2019:

Take extra care in April, June, August, September and January 2020.

Overall, the east is a lovely area for 2019, and if you have a main door or office here, you can fully benefit from this influence when activated with the right enhancers. Good colours to use in the east for 2019 are earth colours such as yellow, beige or brown. If you like to work with crystals, you could place some real quartz or a faceted crystal sphere in the east this year as these are very good for activating the wealth and business side of this nice star.

recommendations and cures for the #6 visiting the east in 2019

- If this is your bedroom, a shade of blue or black in your furnishing or décor may help with health. A blue painting (not water scene) may also do.

Tui 7 Red 兌 The Lofty Wind of Tui (Po Jun) flies into the southeast in 2019

The annual #7 mischievous red star has a negative influence during period 8 and the trigram Tui is also known as 'Broken Soldier'. The #7 is a fighting star and will cause problems if left alone without cures and enhancers and will bring a high risk of burglary, deception, copyright theft, gossip and back stabbing in 2019. With the #7 flying in to the southeast, we have the visiting metal destroying the inherent wood element of the southeast, making it vital to weaken the bad #7 star for 2019.

Please take extra care during May, July, September and October as this will bring an increased chance of robbery and arguments.

If the southeast of your home or office falls in to an area with a main door or window, I would highly recommend that you double check and upgrade your security regularly in 2019 as this area can bring an increased risk of theft and danger. You should check your smoke alarms regularly during the year of the Pig and make sure there are no fire hazards in the southeast.

The Most powerful cure for the southeast in a Yin Earth Pig year is to place a [9 Tier Wen Chang Pagoda](#) to be used to dissipate negative energy and free home or workplace of problems in 2019. The 9-tier metal Pagoda symbolises strength, wealth luck, career luck, good studies, wholeness and decency which is why we have carefully selected this for our [2019 Cures and Enhancers kits](#).

The southeast can cause a lot of problems in 2019 as we have the annual #7 argument star enter the southeast and destroy the inherent good energy from the #4 star which can cause relationship problems. We also have Sui Po located in the southeast for 2019 which when paired with an inauspicious star, can make this an extremely hostile area.

If you have the main door in the southeast of your home or office in 2019, it is important that you hang a [Ba Gua wealth protection mirror](#) outside for added protection in 2019 and make sure that you do not slam the door and oil the hinges regularly.

I know that I have mentioned before that you should check over security, but please remember to do this throughout 2019 as this influence can increase the risk of robbery and deception. Where the #7 star is concerned, prevention is always the best cure, and it always pays to take a little time to make sure that your home or offices security is in order. Do not display any valuable items on windowsills as there is a risk of a passer-by seeing a quick opportunity.

It pays to be wise and avoid taking too many risks if you have an important room in the southeast this year as there may be unscrupulous people working against you. There are indications of misunderstandings, pressure and business rivalries that could also lead to losses.

The best advice I can give for the southeast in 2019 is to check or install smoke alarms, check electrics and check the security of windows and doors in the east.

[Click here to view our range of cures and enhancers for the #7 star in the southeast for 2019](#)

Summary for the annual #7 star in the southeast in 2019:

Keep the southeast of your home or office as quiet as possible and remember to regularly check that your doors and windows are kept closed and secured. Good colours to use in the southeast in 2019 are blue or black. I would try to avoid earth and fire colours and quartz crystals. If you have an office or door in the southeast, please be careful of people trying to deceive you, robbery, arguments and loss of wealth, always look at the very small print and be careful as this star normally causes problems with people you know and thought you could trust.

recommendations and cures for the #7 visiting the southeast in 2019

- You should try to introduce some water colours such as blue in your decoration. You can introduce the colour with cushions, rugs, bed covers or doormats.
- Do not use anything of fire element or colours red to control it as this may aggravate it.
- Avoid candles at all costs in the southeast during 2019
- Place a [9 Tier Wen Chang Pagoda](#) in the southeast of your home or office in 2019 for protection
- Install or service/upgrade smoke alarms and security systems.
- Do not hang metal wind chimes here.

Ken 8 White 艮 has flown in to the centre for 2019

The #8 Ken white star is the most auspicious governing Flying Star for the next six years while we are in period 8 (2004-2024) and in 2019, we have the annual #8 star trapped in the centre and will need some very powerful enhancers to free the wealth star and enhance its positive energy for the year of the Yin Earth Pig. The central palace tends to resonate throughout the other eight palaces, so it is important that this area is treated with the appropriate cures and recommendations below. If you have activated the centre of your home or office for 2019 and have a main door, office, bedroom or any other important room that is used frequently in the centre this year, this is great news for you and you should make the most of this lovely influence.

As with every new Solar year in Feng Shui, it is vital to place a very special Master cure and the most powerful and important cure, and enhancer in 2019 is called a **Madaochenggong Master Cure**, and this cure must only be used in a Yin Earth Pig (Ji Hai) year; this powerful amulet and protective talisman cure is used during Yin Earth Pig years to enhance the annual #8 wealth star. This cure is used to protect and enhance wealth and good luck in 2019, and because the centre has no gender, this cure enhances wealth for all members of the home or office. This is the most vital cure for the whole of any home or office which is why we have included it in all of our [2019 Cures and Enhancers kits](#).

If you have an office, study or main door in the centre in 2019, wealth, fame, prestige, romance and distinction can be expected when activated during the year of the Pig with the relevant cures and enhancers. Because we have the #8 trapped in the centre in 2019, it is important to activate the star, or its auspicious nature will not become activated. The inherent energy of the centre is bad earth, and the annual star is good earth, so we have to be very careful when activating and enhancing the #8 annual earth star or we could cause more harm than good which is why we have carefully chosen our cures for 2019.

The [Dui Ou Lung wealth and success Talisman](#) is an extremely powerful and much-needed cure and enhancer in 2019 because the annual #8 wealth star is locked in the centre palace (heaven heart) in 2019 and without this essential cure and enhancer it can cause many wealth problems and bad luck for a home or business. This very special cure and enhancer talisman are needed in 2019 not only to protect wealth but also to enhance it and the reason why we have included this in all our annual Feng Shui kits this year.

If you work with symbols, quartz crystals, crystal balls or hanging faceted crystals are very good for this central palace this year. The #8 star also governs relationships, so a nice romance enhancer is to display a pair of rose quartz double hearts or a pair of Mandarin Ducks this year.

While wealth is forecasted in 2018 for the centre; it is important that you are careful not to overwork too much during 2019 as this can bring health problems. The additional work will bring a good income but be careful of your health; in particular, stress related resulting in high blood pressure or kidney problems.

Do not place heavy metal in the southeast this year, as it will weaken the good earth and stop the #8 star from being activated.

This is a very strong wealth, success and romance area for 2019 when activated so try and store your important financial papers here like pensions, stock portfolio etc. in the centre. If you use symbolic cures, this is where you should place your three-legged Toad facing your Sheng Chi direction for wealth or a pair of rose quartz crystal hearts for romance.

[Click here to view our range of cures and enhancers for the #8 star in the centre for 2019](#)

- Keep the centre of your home or office clean and free of clutter during 2019
- Place a [Madaochenggong Master Cure](#) for wealth protection in the centre in 2019

- Place a red Tsai Shen Yeh statue in the centre to protect wealth in 2019
- This is also a good study area for children provided they are quiet. Place a task light and a crystal globe on the desk to enhance concentration.

Li 9 Purple 離 You Bi Li 9 Purple is found in the northwest in 2019

The annual #9 purple (You Bi) star has flown in to the northwest in 2019 which will be drained by the inherent northwest #6 star which means we will need to enhance the annual star to balance out the energies in 2019. We also have Tai Sui located in the northwest for the year of the Pig, so this area is very important to get a good balance.

To enhance the auspicious #9 star in the northwest during 2019, I would recommend placing a [Three immortals Statue](#) in the northwest to protect and enhance the energy of this area for 2019 and also enhance wealth and overall luck for the year.

If your home or office has a front door in the northwest in 2019, it is very important that you do not slam the door as loud noises can activate the dangerous effects of Tai Sui. I would also avoid any internal doors or windows being slammed in the northwest during 2019 and avoid digging or renovating your property in this area at all costs; if you have no option but to undergo heavy work this year, please make sure that you follow the advice below and also have the relevant cures in place.

The traditional method to appease Tai Sui is to place a [Xie Tai Tai Sui plaque](#) to pay respect and appease the deity. By paying respect to Tai sui, you can avoid the problems that are prevalent with this annual affliction. These are two key cures for the northwest in 2019 although please do not worry if you cannot afford these; there are a lot of other options you can implement to weaken the troubles that Tai sui can bring.

The worst thing you could do in the northwest from the 4th February 2019 to the 3rd February 2020 would be to take on any ground-breaking work such as replace window or door frames, knock through an internal wall, build an extension, lay a patio or other similar work. My general rule of thumb for small jobs such as hammering a nail to hang a picture or drill a hole is to minimise as much noise as you can; if you can use a manual hand drill, it is better to be safe than sorry.

Nearly every year, you will come across a sector in your home with a fortunate annual star which suffers from one of the annual afflictions although if you are careful and do not make too much noise in the northwest this year, you can still benefit from the lovely influence that the annual #9 can bring to the northwest in 2019. Once you have your Xie Tai Tai Sui plaque in place, you can attract new wealth and protect existing wealth by placing a Three Immortals statue which can bring all of the positive energy from the visiting star.

The element of the annual #9 star can strengthen the malevolent effects of visiting monthly stars #2 and #5 so please be careful during March, September and November.
